Supplementary material

Three new lobarioid lichens (lichenized Ascomycota: Peltigeraceae) from Colombia in memory of Enrique Forero

Tres nuevos líquenes lobarioides (Ascomycota liquenizados: Peltigeraceae) de Colombia en memoria
de Enrique Forero

 Bibiana Moncada,  Diego Rincón-Murillo,  Robert Lücking

Correspondent author Bibiana Moncada; lbmoncada@udistrital.edu.co

Contents

- Figure 1S. Prof. Dr. Enrique Forero with the three authors during the First Colombian Mycological Congress (Primer Congreso Colombiano de Micología) at the Universidad del Bosque in Bogotá in June 2022
- Supplementary Files S1, S2, S3. Alignments in Fasta format of the ITS fungal barcoding marker for the assessment of the phylogenetic relationships of the three new species of Lobariella, Sticta, and Yoshimuriella.

Figure 1S. Prof. Dr. Enrique Forero with the three authors during the First Colombian Mycological Congress (Primer Congreso Colombiano de Micología) at the Universidad del Bosque in Bogotá in June 2022

Supplementary Files S1, S2, S3. Alignments in Fasta format of the ITS fungal barcoding marker for the assessment of the phylogenetic relationships of the three new species of *Lobariella*, *Sticta*, and *Yoshimuriella*.

S1: LOBARIELLA
