

Table 1S. Comparisons of circadian distributions of four species present in the two savanna ecosystems. Significant Mardia-Watson-Wheeler tests and statistical probability p-values < 0.05

Species	W	P
<i>Tamandua tetradactyla</i>	1.162	0.559
<i>Myrmecophaga tridactyla</i>	0.988	0.61
<i>Cuniculus paca</i>	0.71	0.701
<i>Dasyprocta fuliginosa</i>	1.988	0.37
