Introduction
Materials and methods
Results and discussion for short communications
Discussion
Conclusions

Authors' contribution: A paragraph in which each of the authors declares their personal contribution to the manuscript under consideration

Conflict of Interest Statement: The authors do not have any conflict of interest that could influence transparency or objectivity in the peer review and publication process. See Guidelines for Authors

Acknowledgments to written permission contributors and to the institutions or organizations that funded the research

References must be included as a file with a. bib extension in APA format following the rules of the ACCEFYN journal in the instructions to the authors.

Figures (maximum number ten)

• Upload the images from the computer to the Overleaf platform and use them within the template
• The corresponding legends are included below the respective figure

Tables (maximum number seven)

• Include the tables in the main.tex section as indicated in the acCEFYN magazine template
• They are ordered sequentially
• The corresponding title is included at the top

The source file must be sent to the journal by downloading the .zip of the Overleaf platform in which it must be included:

Image folder
main.tex
Bibliografia.bib
Styles-ACCEFN.sty

Indications are provided on three or four potential reviewers with their full names, academic background, and email addresses.
